WHO WE ARE

Equal Notes is a 501(c)(3) nonprofit organization founded in 2024 to expand equitable access to music education for all students around the world. Grounded in the belief that music fosters confidence, creativity, discipline, and connection, Equal Notes works to reduce financial and structural barriers that limit participation in instrumental learning. Through mentorship, beginner instruction, and increased access to instruments, the organization seeks to ensure that all students have the opportunity to experience the educational and personal benefits of music.

EQUAL NOTES

Big Brother, Big Sister Program

- Connects Equal Notes volunteers with younger students through beginner-friendly music activities
- Gives students opportunities to explore instruments available at the school or facility
- Builds basic musical skills through hands-on learning
- Encourages confidence, creativity, teamwork, and self-expression
- Creates meaningful mentorship connections in a supportive environment

BeatsLab Digital Music Production Workshop

- Introduces students to beginner-friendly digital music production
- Explores beat-making, rhythm activities, and creative composition
- Uses accessible music technology and digital tools
- Gives students opportunities to explore sounds and create original tracks
- Teaches foundational music production skills through hands-on projects
- Builds confidence, creativity, listening skills, and collaboration

BENEFITS OF OUR PROGRAMS

- Introduce students to instruments, digital music production, rhythm, and creative composition
- Build confidence through hands-on learning and positive encouragement
- Develop teamwork, listening, communication, and problem-solving skills
- Give students opportunities to create, perform, and express themselves through music
- Connect younger students with supportive student mentors and instructors

Why Equal Notes Matters

- Many students do not have equal access to music lessons, instruments, or music technology
- Equal Notes helps make music education more accessible, welcoming, and engaging
- By bringing music into schools and community spaces, we help students discover skills/interests, and embrace creativity
